

## **COST ACTION 18114 ENTAN – European Non-Territorial Autonomy Network**

# **Call for ‘Short Term Scientific Missions’ (STSM)**

**STSMs have to be finished by 30 September 2021**

**ENTAN** – is a COST Action aimed at examining the concept of non-territorial autonomy (NTA). ENTAN particularly focuses on NTA arrangements for reducing inter-ethnic tensions within a state and on the accommodation of the needs of different communities while preventing calls to separate statehood. The main objective is to investigate the existing NTA mechanisms and policies and to develop new modalities for the accommodation of differences in the context of growing challenges stemming from globalisation, regionalisation and European supranational integration. The network fosters interdisciplinary and multidisciplinary group work, and provides for training and empowerment of young researchers, academic conferences and publications, as well as for the dissemination of results to policy makers, civil society organisations and communities.

ENTAN will provide for up to 10 STSM grants under this call.

There is no specific deadline, applications can be submitted at any time, whereas grant decisions are normally announced within 20 days after submission. Grants are awarded on a first come first served basis.

All STSMs have to be finished by 30 September 2021.

## PURPOSE OF STSM:

Short Term Scientific Missions (STSM) are institutional visits aimed at supporting individual mobility, fostering collaboration between individuals who are employed or affiliated to an institution in a country participating in ENTAN.

Applications from early career investigators (ECIs) (up to 8 years after their PhD completion) and researchers from inclusiveness target countries (ITC) participating in ENTAN are strongly encouraged.

Applicants willing to work on specific NTA case studies from a comparative legal and political perspective or from the standpoint of cultural identities or regional development (either in relation to relevant arrangements in one or more states or to NTA institutions of a specific minority) are particularly encouraged to apply.

## FINANCIAL SUPPORT:

Funding rules are described in detail in [Section 8 of the COST Vademecum](#).

COST provides for a fixed grant that contributes to the overall expenses incurred during the STSM. Financial support is limited to cover travel and subsistence expenses and is paid as a grant at the end of the visit.

The calculation of the financial contribution for each STSM must respect the following criteria:

1. Up to a maximum of EUR 3500 in total can be afforded to each successful applicant;
2. Up to a maximum of EUR 160 per day can be afforded for accommodation and meal expenses.

The daily subsistence allowance may be adjusted, by the Grant Holder, to the different countries, taking into consideration the actual cost of living. Successful applicants will be informed of the exact amount to be afforded and requested to amend the STSM application.
