

COST ACTION 18114 ENTAN – European Non-Territorial Autonomy Network

Call for ‘Virtual Mobility’ (VM) Grants

ENTAN will provide for up to 10 VM grants under this call.

All VMs have to be finished by 30 September 2022.

ENTAN – is a COST Action aimed at examining the concept of non-territorial autonomy (NTA). ENTAN particularly focuses on NTA arrangements for reducing inter-ethnic tensions within a state and on the accommodation of the needs of different communities while preventing calls to separate statehood. The main objective is to investigate the existing NTA mechanisms and policies and to develop new modalities for the accommodation of differences in the context of growing challenges stemming from globalization, regionalization and European supranational integration. The network fosters interdisciplinary and multidisciplinary group work, and provides for training and empowerment of young researchers, academic conferences and publications, as well as for the dissemination of results to policy makers, civil society organisations and communities.

PURPOSE OF VM GRANTS:

Virtual Mobility Grants (VM) aim at strengthening the existing networks by allowing scientists to foster collaboration in a virtual setting, to exchange knowledge, learn new techniques, disseminate Action results, etc.

Applications from Young Researchers and Innovators (YRIs) (under 40 years of age) and researchers from inclusiveness target countries (ITC) participating in the COST Action18114 are strongly encouraged.

The successful applicant(s) will be selected by the Grant Awarding Committee (GAC) of ENTAN to perform activities that do not necessarily require in-person presence. These activities may include research (surveys, online interviews, etc.), preparation of joint research and publication activities, virtual mentoring of activities that can generate capacity, build new skills, content preparation and coordination, etc.

FINANCIAL SUPPORT:

Funding rules are described in detail in [COST Annotated Rules](#).

1. Up to a maximum of EUR 1500 in total can be afforded to each successful applicant as a fixed grant that contributes to the overall expenses incurred during the VM.
